Question # 1 of 2

What does WAN stand for?

Select the correct option

- ○ Web Access Network
- ◉ Wide Area Network
- ○ Wi-Fi Area Network
- ○ Wireless Area Network

The _____ is a unique computer network as it connects almost all enterprise networks and individual users.

Select the correct option

◉	Internet
○	MAN
○	LAN
○	Enterprise WAN

Cabling guy is also called as _____.

Select the correct option

○	Server Guy
◉	Electrician
○	Network Guy
○	Plumber

Question # 1 of 2

Network services that hide the network from the end user are called as _____.

Select the correct option

○	automatic network services
○	alternative network services
○	authentic network services
◉	accidental network services

_____ is the device used to print the document.

Select the correct option

- ○ Speaker
- ◉ Printer
- ○ Scanner
- ○ Monitor

The largest engineered system ever created by mankind is _____ which consists of hundreds of millions of connected computers, communication links, and switches.

Select the correct option

Reload Math Equations

- ○ Protocol

The place where you can plug in network cables on a switch is called as _____.

Select the correct option

○	Medium
○	PC
●	Port
○	Hub

Networking connections among enterprises and individual home users are provided by the _____.

Select the correct option

○	VPN
○	WAN
◉	ISP
○	LAN

_____ is the global network to which almost every company and organization in the world is connected.

Select the correct option

○	Topology
○	MAN
○	LAN
◉	The Internet

_____ is a collection of devices connected together in one physical location, such as a building, office, or home.

Select the correct option

Re

- ○ CAN
- ○ MAN
- ◉ WAN ✗
- ○ LAN ✓

_____ is not a web browser.

Select the correct option

○	Microsoft Edge
○	Firefox
◉	MS Word
○	Internet Explorer

An _____ is a text string that represents the address of a person for the purposes of sending and receiving e-mail.

Select the correct option

- (●) e-mail address
- ( ) Web address
- ( ) Network address
- ( ) Postal address

Question # 4 of 5

_____ allows a user to create, send, and receive messages electronically.

Select the correct option

○	ISP
○	URL
◉	E-Mail
○	Word processor

URL stands for _____.

Select the correct option

◉	Uniform Resource Locator
○	User Resource Licence
○	User Resource Locator
○	Unit Resource Locator

In terms of electrical signals, AC stands for _____.

Select the correct option

○	Ampere Current
○	Alternating Current ✓
○	Analog Current
○	Accurate Current

In computer Networking, NIC stands for _____.

Select the correct option

○	New Interface Card
○	Network Interface Card ✓
○	National Interface Card
○	Natural Interface Card

In terms of electrical signals, DC stands for _____.

Select the correct option

○	Digital Current
○	Dual Current
◉	Direct Current
○	Discrete Current

In a network, two computers that want to communicate with each other must agree to use the same networking _____

Select the correct option

Re

- ○ Medium
- ◉ NIC
- ○ MAC
- ○ Protocol

A networking _____ will define the encoding rules so that data can be transmitted.

Question # 1 of 5

_____ is a public network model accepted world wide now a days.

Select the correct option

○	OSI
○	HTTP
○	TCP/IP ✓
○	IETF

DEC created a _____ gateway, which allowed the DEC and IBM SNA devices to talk.

Select the correct option

○	DEC-to-TCP
●	DEC-to-SNA
○	SNA-to-DEC
○	SNA-to-TCP

Networking model created by IBM is _____.

Select the correct option

○	DEC
◉	SNA
○	TCP
○	DECnet

_____ manages the process of creating TCP/IP standards.

Select the correct option

○	HTTP
●	IETF
○	DEC
○	SNA

DEC stands for _____.

Select the correct option

●	Digital Equipment Corporation
○	Dual Equipment Corporation
○	Direct Equipment Corporation
○	Data Equipment Corporation

Google Chrome is an example of _____.

Select the correct option

- ○ Email server
- ○ Word processor
- ○ Web server
- ◉ Web browser

Question # 1 of 5

TCP stands for _____.

Select the correct option

○	Transport Congestion Protocol
○	Time Control Protocol
○	Transition Control Protocol
◉	Transmission Control Protocol

Question # 2 of 5

_____ defines standards for LANs.

Select the correct option

○	ITU
○	TCP/IP
◉	IETF
○	IEEE

_____ defines logical addressing and routing for the TCP/IP model.

Select the correct option

○	HTTP
○	TCP
●	IP
○	FTP

RFC stands for _____.

Select the correct option

◉	Request for Comments
○	Request for Communication
○	Role for Comments
○	Read for Comments

_____ defines standards for WANs.

Select the correct option

○	IEEE
◉	ITU
○	IETF
○	TCP/IP

_____ is explained in RFC 791.

Select the correct option

○	TCP
○	UDP
○	FTP
◉	IP
