EDU101 Glossary

- **Axiology**

Axiology is the philosophical study of "values"

- **Curriculum**

The term curriculum refers to the lessons and academic content taught in a school or in a specific course or program.

- **Epistemology**

The word epistemology is derived from the Greek episteme meaning "knowledge" and logos meaning "study of". So, Epistemology is the philosophical study of "Knowledge"

- **Ontology**

Ontology is the philosophical study of the nature of being, becoming, existence, or reality, as well as the basic categories of being and their relations.

- **operant conditioning**

Operant conditioning can be described as a process that attempts to modify behavior through the use of positive and negative reinforcement. Through operant conditioning, an individual makes an association between a particular behavior and a consequence

- **Perennialist**

Perennialists believe that the focus of education should be the ideas that have lasted over centuries. They believe the ideas are as relevant and meaningful today as when they were written.

- **postmodernization**

Postmodernism means literally ‘after the modern era’. The modern era stresses the renaissance period to the end of about World wars I & II which is from the 18th to the mid or late 20th century. The modern era was far more predictable the postmodern era. The postmodern era has more risks and cannot be predicted.
